awards.
2005-2018

Patented Soft Pulse Technology gently vibrates aligners into place, reducing orthodontic discomfort, and accelerating tooth movement by up to 50%

What is AcceleDent?

AcceleDent Optima™ is the most advanced accelerated orthodontic device with a comprehensive suite of technology driven features. Simple and easy-to-use, AcceleDent Optima is clinically shown to speed up tooth movement by as much as 50% while reducing orthodontic discomfort.

Aligners Off-Track?

Ask about AcceleDent

- Need Optimal Force Translation.
- Aligners are seating well over the teeth and all attachments properly engaged.
 - . No visible gaps
 - . No unexpressed forces
- Increased tooth movement accuracy
- Treatment animation represents real clinical situation at each aligner stage.
- Less (or no) refinement stages needed
- Predictable clinical outcomes.
